

Questions and Responses to MATOC Solicitation 05-0002-06
9 Feb 05

Question 1. Is there an incumbent for this effort? If so, who is it?

Answer 1: Yes. CACI.

Question 2. Since paragraph 4.8.1 states that no classified information or requirements are anticipated would the government change the requirements of paragraph 4.8.2 to Confidential vs. Secret clearance?

Answer 2: No.

Question 3. Will the government change the requirement for a Bachelors Degree with a business concentration if the proposed candidate possesses the required contracting experience and a DAWIA level II or III certification?

Answer 3: Yes. Paragraphs 3.1.2 and 3.1.3 of the Solicitation are changed to reflect that the contractor may propose alternate qualifications for their personnel. A Bachelors degree with business concentration is preferred, but not required. Additional years of experience may be considered in lieu of experience.

Question 4. Paragraph 4.9—if this effort results in a contract award to one of the companies, does this provision also prohibit them from bidding other tasks specifically under CLIN 0002—Business and Financial services? What type of firewall/mitigation plan will be acceptable to ONR?

Answer 4: No. The contractor may bid on other MATOC CLIN 0002 tasks. Contractor personnel will be precluded from processing other MATOC CLIN 0002 requirements.

Question 5. Paragraph 4.6.4—if NMCI seats are required in the future, will the contract be modified to reflect this increase and these costs become allowable ODCs under the contract?

Answer 5: Yes.

Question 6. Who is currently responsible for this work? Is the work performed internally or by a contractor?

Answer 6: See response to Question 1 above.

Question 7. If by contractor, who are they and are they eligible to bid on this Task Order Solicitation?

Answer 7: See response to Question 1 above. Yes.

Question 8. What is the level of funding for this requirement?

Answer 8: The Government does not intend on releasing funding information.

Question 9. Is the need for an undergraduate degree firm, or will years of experience be considered? The reason for the latter question is that there are military personnel who are departing the service with years of contracting experience, but who either have associate degrees or are in the process of completing their undergraduate degrees. Given the difficulty in finding this scarce commodity, we were curious as to whether we could propose such individuals.

Answer 9: See response to Question 3 above.
